

Section 3. Amendment to the Specification Abstract

Kindly replace the abstract with the revised abstract as shown immediately following.

In the Specification

Abstract of the Disclosure (currently amended)

10 This invention relates to a Cat Toy with a fishing reel and rod type assembly connected to a hollow mouse
via a tether. When a person presses a switch on top of the rod, the tether is wound onto the reel. When a
cat moves the mouse, the mouse vibrates and makes a noise. The mouse may be charged with catnip or
similar cat attracting material. Alternatively, a person can freely cast out the tether and attached mouse to
attract a cat.

Remarks

Every effort has been made to constructively amend each area of the claims and specification in
accordance with all of the examiner's observations in the October 2002 Office Action. Accordingly,
applicant respectfully requests a timely Allowance in this case.

Respectfully Submitted,

Michael A. Shippey
